their native countries. (Often, Monday is counted as the first of the week.) Do several examples from Parts A and B as a group, before assigning this page for independent work.

**Skill Objectives:** Naming the days of the week, using a chart. Teach or review the days of the week. If possible, let students examine several calendars and note the different abbreviations used. Point out that in the U.S., Sunday is considered the first day of the week. Ask students if this is true in
